

INDEX - PACE NEWSLETTER ARTICLES

<u>Volume 8 Issue 10 – January 2010</u>	<ul style="list-style-type: none"> • Medicines management website launched • Beta-blockers in heart failure • ACEIs or ARBs in IHD • Prasugrel • Opioids for osteoarthritis • Fifty years of thiazide diuretics • Use of NICE appraised medicines. • Drug safety update • Hypertension algorithm
<u>Volume 8 Issue 9 – December 2009</u>	<ul style="list-style-type: none"> • Ulipristal • Statins: updated product information • Silver dressings • More on aspirin for primary prevention • St John's Wort and hormonal contraceptives • Oral contraceptives and venous thromboembolism • Positive effects of vitamin D • Website of the month
<u>Volume 8 Issue 8 – November 2009</u>	<ul style="list-style-type: none"> • Management of community acquired pneumonia • More on aspirin for primary prevention • Smoking and clinically significant interactions • Bisphosphonates and osteonecrosis of the jaw • Inhaled corticosteroids in COPD and the risk of pneumonia • Seretide/Symbicort in COPD • Hypertension in the elderly • Statins in people with renal impairment • Heart failure with atrial fibrillation • Algorithm for drug use in COPD
<u>Volume 8 Issue 7 – October 2009</u>	<ul style="list-style-type: none"> • Generic clopidogrel • Treating acute otitis media • Reducing antibiotic prescribing • Antidiabetic therapies affect risk of pancreatic cancer • More on glitazone safety • Severe hypoglycaemia and dementia • Diet and the need for antihyperglycaemic drugs • Monitoring alendronate treatment • Treatment blood pressure targets • Guidelines update
<u>Volume 8 Issue 6 – September 2009</u>	<ul style="list-style-type: none"> • Update on safety of insulin glargine – part 2 • Travel and risk for VTE • Dose warfarin interact with oseltamivir or zanamivir? • Neuraminidase inhibitors in children • Neuraminidase inhibitors in adults • First-line drugs for hypertension • What BP target? • Update on statins • NICE guideline for low back pain • Ranolazine

Volume 8 Issue 5 – August 2009	<ul style="list-style-type: none"> • Antivirals for flu • Stopping long-term amiodarone • Update on safety of insulin glargine • The RECORD Study • Triptans and SSRIs – is there an interaction? • Drug Safety Update • Revised British Asthma Guideline • Algorithm for drug use in COPD
Volume 8 Issue 4 – July 2009	<ul style="list-style-type: none"> • Melatonin shared care • Guidelines update • HbA1c now reported in different units • Aspirin for primary prevention – ASCEND trial • Evidence for rosuvastatin? • Cancer and palliative care • Drug safety update • Hay fever management in pregnant or breastfeeding women • ALLHAT findings revisited • Antiepileptic drugs and suicide risk • Treatments for neuropathic pain • Treatment of intermittent claudication
Volume 8 Issue 3 – June 2009	<ul style="list-style-type: none"> • Clopidogrel and PPIs – stop press • Re-evaluating blood glucose control in type 2 diabetes • Stroke risk in paroxysmal atrial fibrillation • Anticoagulation intensity and outcomes • Clopidogrel plus aspirin in AF • Colesevelam • Update on treatments for head lice • Olive oil treatment for cradle cap – can it worsen the condition? • Drug safety update • Oral salicylate gels for children • Risks with oral anti-cancer medicines • Malaria prophylaxis
Volume 8 Issue 2 – May 2009	<ul style="list-style-type: none"> • Clopidogrel and PPIs – part 2 • Antidiabetes drugs and the risk of lactic acidosis • Fracture risk with glitazones • Risks of PPI use • Risks of NSAID use in heart failure • Drug induced <i>Clostridium difficile</i> infection • Prescribing off-label or unlicensed medicines • Dipyridamole for stroke prevention • Z-drugs and road traffic accidents • Antiepileptics: adverse effects on bone
Volume 8 Issue 1 – April 2009	<ul style="list-style-type: none"> • NuvaRing • Fish oil supplements for behavioural problems • Insulin analogues • Drug Safety Update • Cialis Once-A-Day • Sensible HbA_{1c} targets • Metformin SR • Antipsychotics: use in dementia • OTC cough and cold medicines in young children

Volume 7 Issue 12 – March 2009	<ul style="list-style-type: none"> • Guidelines update • COPD treatment algorithm • Drug safety update • Aspirin for primary prevention of CV disease • Use and care of spacer devices • The VADT study • Clopidogrel and PPIs • Algorithm for drug use in COPD
Volume 7 Issue 11 – February 2009	<ul style="list-style-type: none"> • Prevention of osteoporotic fragility fractures • Red drug audit • The ACCOMPLISH trial • Before you refer for hypertension • Diuretics for patients with prediabetes or metabolic syndrome • Elevated blood pressure in the very elderly • Aspirin for the prevention of type 2 diabetes • Primary prevention of osteoporotic fragility fractures • Secondary prevention of osteoporotic fragility fractures
Volume 7 Issue 10 – January 2009	<ul style="list-style-type: none"> • Cancer risk with ezetimibe? • Beta-blockers for heart failure • What is the drug of choice to manage inadequate lactation? • Prevention of GI adverse events with antiplatelet drugs • Drug safety update • Statin update • JUPITER study
Volume 7 Issue 9 – December 2008	<ul style="list-style-type: none"> • Rosiglitazone no longer recommended • Titration of metformin • Aspirin and diabetes • Aspirin for hypertension? • Drug safety update • A 4-year trial of tiotropium in COPD (UPLIFT) • How effective is alendronate? • Combined antiplatelet and anticoagulant therapy
Volume 7 Issue 8 – November 2008	<ul style="list-style-type: none"> • Self-monitoring of blood glucose • Safety of formoterol in asthma • The GISSI-HF trial • Risks of HRT • Antibiotic prescribing for respiratory tract infections • Clostridium difficile infection • Drug safety update • Which antidepressant in pregnancy and breast-feeding? • Care pathway for respiratory tract infections
Volume 7 Issue 7 – October 2008	<ul style="list-style-type: none"> • Melatonin products • Choice of GnRH analogue • Inhaled anticholinergics and adverse CV events • HPV immunisation programme • Drug safety update • ARBs vs ACE inhibitors • ACEI plus ARB worsens renal outcomes • Oestrogen and progestogen use in postmenopausal women

Volume 7 Issue 6 – September 2008	<ul style="list-style-type: none"> • Guidelines update • More on bleeding risk with SSRIs • Intensive blood glucose-lowering • Efcortelan discontinued • More data on the safety of salmeterol in asthma • Drug safety update • More on insulin analogues • FDA safety warning for exenatide • Drugs for urinary incontinence
Volume 7 Issue 5 – August 2008	<ul style="list-style-type: none"> • Colesevelam • Modified-release melatonin • Dipyridamole • Treating hypertension in the elderly • Update on gout • Antioxidants and zinc for age-related macular degeneration • Metformin SR • Choice of angiotensin II receptor antagonist • Drug safety update • Rimonabant • Commonly used treatment options provide limited benefit • Drugs affecting the renin-angiotensin system
Volume 7 Issue 4 – July 2008	<ul style="list-style-type: none"> • Revised British Asthma Guideline • eGFR and CKD • Treatment of nausea and vomiting in pregnancy • Drug safety update • Tramadol with SSRIs and the serotonin syndrome • Structured education in type 2 diabetes (DESMOND) • Antibiotics for sinusitis-like symptoms • Antibiotics and antiseptics for venous leg ulcers
Volume 7 Issue 3 – June 2008	<ul style="list-style-type: none"> • Post-trial drug supply • Lipid lowering • ACE inhibitors in CV disease – unbeatable? • Prophylaxis against infective endocarditis • Long-term pharmacotherapy for obesity • Drug safety update • Self-monitoring of blood glucose • More on glitazones • COPD treatment algorithm
Volume 7 Issue 2 – May 2008	<ul style="list-style-type: none"> • Guidelines update • Antimicrobial treatment guidelines • Can patients who develop angioedema with an ACEI try an AIIRA? • Calcium supplements and the risk of MI • Management of osteoarthritis • Cold sore machine on NHS prescription • Drug safety update • Prescribing gluten-free foods • Tension-type headache • Glycaemic targets in type 2 diabetes
Volume 7 Issue 1 – April 2008	<ul style="list-style-type: none"> • More on statins • Salbutamol nebulas • Adrenal suppression with inhaled fluticasone • The INSPIRE study

	<ul style="list-style-type: none"> • Fever in children • Smoking cessation • Otitis media with effusion • Irritable bowel syndrome • Drug safety update • Bleeding risks with SSRIs • Overprescribing PPIs • Managing neuropathic pain • OTC medicines for coughs and colds
Volume 6 Issue 12 – March 2008	<ul style="list-style-type: none"> • More on ezetimibe • OTC Medicines for acute cough • LABAs for asthma: review by MHRA • Drug safety update • Adverse events with intensive blood glucose-lowering • Obtaining Zoladex (goserelin) • More on statins • Patella taping for chronic knee pain • Antibiotic exposure and risk of MRSA isolation • Top tips in 2 minutes: Chronic kidney disease
Volume 6 Issue 11 – February 2008	<ul style="list-style-type: none"> • Ezetimibe: NICE guidance • Fostair 100/6 pMDI • Sativex oromucosal spray • Appropriate use of amiodarone • Statins for people with diabetes • Drug safety update • Bisphosphonates and musculoskeletal pain • Hedrin lotion now a first-line option • Prevention of infection in patients with absent spleens • Clopidogrel plus aspirin • Anticoagulant plus antiplatelet for PAD? • Asthma in children • Breastfeeding and thrush
Volume 6 Issue 10 – January 2008	<ul style="list-style-type: none"> • Use of Varenicline • UK licence for co-proxamol now withdrawn • Safety warning for fentanyl patches • Escitalopram for depression • Drug safety update • ACE inhibitor, diuretic and NSAID: a dangerous combination • Probiotics for irritable bowel syndrome? • Community acquired pneumonia – diagnosis and referral • Acute sinusitis – to treat or not to treat? • Outcome data for rosuvastatin? • Adverse effects of ACEI plus ARB in heart failure • Cardiovascular safety of glitazones in older people • Thyroid function abnormalities during amiodarone therapy • Update on HPV vaccine
Volume 6 Issue 9 – December 2007	<ul style="list-style-type: none"> • Choice of glucosamine preparation • Tiotropium (Spiriva) Respimat • Discontinuation of Combivent inhaler • Erdosteine 300mg capsules • Drug safety update

	<ul style="list-style-type: none"> • Updated guidelines • Aspirin in combination with clopidogrel • Antimuscarinic drugs for urinary incontinence • Fire hazard with paraffin based skin products • Appropriate management of dental infections • Bath emollients for atopic eczema • ACEIs or ARBs? • Epilepsy in pregnancy • Beclometasone MDIs • Naproxen tablets
Volume 6 Issue 8 – November 2007	<ul style="list-style-type: none"> • Use of nicorandil • Analgesia in renal colic • ADVANCE Trial • Drug safety update • More on ‘stormin’ metformin • Diclofenac and the risk of MI • Dressings for acute and chronic wounds • Dressings for venous leg ulcers • Prescribing antibiotics in primary care • New guidance on otitis externa
Volume 6 Issue 7 – October 2007	<ul style="list-style-type: none"> • Appropriate oral antibiotic use for acne • UTI in children • Chronic fatigue syndrome • 2007 update to the British Asthma Guideline • Painful diabetic neuropathy • Switching from atorvastatin to simvastatin • Fall in simvastatin prices • Continence appliance prescribing guidelines • Drug safety update • NPCi has now been launched • HPV vaccine • More on CV risk with glitazones
Volume 6 Issue 6 – September 2007	<ul style="list-style-type: none"> • Problems with fentanyl patches • SSRIs and the risk of fracture • Dopamine agonists in Parkinson’s disease • Choice of phenytoin preparation • The DiGEM study • Anti-VEGF treatment • Lumiracoxib • Glitazones and heart failure • Which insulin regime for type 2 diabetes? • Driving and insulin-treated diabetes • Echinacea for the common cold
Volume 6 Issue 5 – August 2007	<ul style="list-style-type: none"> • NSAIDs and thrombotic risk • Restricted use for piroxicam • New advice on the use of NRT • New insulins • More on rosiglitazone • Management of faecal incontinence • Audit of anti-obesity drug prescribing • Safety of rimonabant • Price of oral contraceptives • MI: secondary prevention • Nicorandil • Nystatin ‘off-label’ for oral thrush in neonates

Volume 6 Issue 4 – July 2007	<ul style="list-style-type: none"> • Travelling abroad with controlled drugs • HPV Vaccine • Feverish illness in children • Aspirin dose for the prevention of CV disease • Reducing stroke risk in AF • Once daily corticosteroid creams in atopic eczema • Explaining risk reduction • Use of tramadol • Insulin discontinuations • Choice of angiotensin-II receptor antagonist • Blood pressure device project • Is use of Symbicort smart? • Use of ICS in COPD
Volume 6 Issue 3 – June 2007	<ul style="list-style-type: none"> • Metformin SR • Amantadine for neuropathic pain • Making anticoagulant use safer • Rosiglitazone associated with increased risk of MI? • Insulin discontinuations – advice on switching • Prescribing situations not covered by the NHS • Pharmaceutical sponsorship policy launched – <i>is there any such thing as a free lunch?</i> • Glucose tolerance test • Antenatal and postnatal mental health • The MEDAL study • Inhaled corticosteroid use in COPD • Management of patients on oral anticoagulants requiring dental surgery • Vitamin D alone may not be enough to prevent hip fractures
Volume 6 Issue 2 – May 2007	<ul style="list-style-type: none"> • Asthma and Beta Blockers • CFC-free beclometasone • Easyhaler • New treatments for head lice • Eye disorders with glitazones? • Metformin in non-obese individuals with type 2 diabetes • More on insulin analogues in type 2 diabetes • NHS sickle cell and thalassaemia antenatal screening programme • Eminence-based guidelines: a quality assessment of JBS2 • The SAGE study • The TORCH study • Tiotropium in combination with placebo, salmeterol, or fluticasone-salmeterol for treatment of COPD • Algorithm for drug use in COPD
Volume 6 Issue 1 – April 2007	<ul style="list-style-type: none"> • CEPPaC • Fracture risk – a class effect of glitazones? • Glucosamine prescribing • SSRIs and the risk of fracture • PPIs and the risk of fracture • Antenatal and postnatal mental health • Common warfarin drug interactions

Volume 5 Issue 12 – March 2007	<ul style="list-style-type: none"> • Insulin therapy in type 2 diabetes • Long-term alendronate treatment • Average or lowest blood pressure? • Heavy menstrual bleeding • Rosiglitazone and fractures • Attention prescribers: be careful with antibiotics • Combined aspirin and oral anticoagulant therapy? • Do angiotensin receptor blockers increase the risk of MI? • Care needed when writing insulin doses • Prescribing Antipsychotic Drugs for Older Adults with Dementia • Minocycline for acne • Algorithm for initiation of insulin in type 2 diabetes
Volume 5 Issue 11 – February 2007	<ul style="list-style-type: none"> • Simvastatin 40mg LES proposal • Use of Oxybutynin • NICE guidance on inhaled insulin • NICE guideline on obesity • New guidance on the prevention of malaria in travellers • Guidance for steroids in MS • Primary prevention with statin therapy • The ADOPT trial • Guidelines update • Treatment of vasomotor symptoms of menopause • Updated hypertension guideline • Hypertension algorithm
Volume 5 Issue 10 – January 2007	<ul style="list-style-type: none"> • Bisphosphonates and osteonecrosis of the jaw • Armour thyroid • Withdrawal of co-proxamol • Use and safety of LABAs in asthma • Spironolactone and risk of upper GI events • Management of cough in adults • Communicating risks and benefits • Red hot chilli peppers and haemorrhoid symptoms • Smiley face charts • One thousand people palette
Volume 5 Issue 9 – December 2006	<ul style="list-style-type: none"> • Choice of bisphosphonate • Cognitive therapy superior to zopiclone • Sedative hypnotics in older people • Bronchiolitis in children • Management of suspected UTI • Antibiotics for acute otitis media • Management strategies for acute infective conjunctivitis • Thiazides and raised blood glucose levels • The newborn and 6-8 week infant physical exam • Prescribing of MR morphine and fentanyl patches • More on eGFR and CKD • More on HPV vaccines • Management of urinary incontinence in women • Miracle hiccup cure

<u>Volume 5 Issue 8 – November 2006</u>	<ul style="list-style-type: none"> • Success of the statin policy • Combination antithrombotics and bleeding risk • New indication for clopidogrel • Human Papillomavirus Vaccine (Gardasil) • More on eGFR and CKD • Review of non-selective NSAIDs • New items on the PACEF intranet site • More on rimonabant • Prescribing gabapentin • NICE Clinical Guideline 38 – Bipolar Disorder – Implications for Primary Care • CKD Patient Information Leaflet
<u>Volume 5 Issue 7 – October 2006</u>	<ul style="list-style-type: none"> • Appropriate use of insulin in type 2 diabetes • Glycated haemoglobin (HbA_{1c}) monitoring • Is it a DREAM result? • Appropriate use of blood glucose testing strips • POWERbreathe Medic • GI bleeding with SSRIs • The SPARCL study • PPIs and the risk of <i>C. difficile</i>–associated disease • Guidelines update • More on eGFR and CKD
<u>Volume 5 Issue 6 – September 2006</u>	<ul style="list-style-type: none"> • Early detection of COPD • Shared decision making about medicines • New studies of raloxifene • Anticholinergics or beta-agonists in COPD? • Black cohosh and menopausal hot flashes • Spacers versus nebulisers for beta-agonist treatment of acute asthma • Clostridium difficile policy • Differentiating between urge and stress incontinence
<u>Volume 5 Issue 5 – August 2006</u>	<ul style="list-style-type: none"> • Recommendations for the safe use of LABAs • Clenil Modulite • Rimonabant • Restless legs syndrome • Induction of ovulation in women with PCOS • The ACTIVE W trial • Absorption from iodine dressings • HRT and urinary incontinence • Black Cohosh and liver injury • Research and audit newsletter • Guidelines update • Measuring blood pressure – Top 10 tips • Choosing drugs to lower blood pressure
<u>Volume 5 Issue 4 – July 2006</u>	<ul style="list-style-type: none"> • Inhaled insulin (Exubera) • Atimos modulite (formoterol cfc-free MDI) • Switching statins • Ambulatory BP monitoring • Beta-blockers for hypertension • ACE inhibitors and congenital malformations • Updated hypertension guideline • Updated prescribing advice for venlafaxine • Wasted medicines and avoidable adverse events • Which drug regimens can be used to suppress menstruation for a woman going on holiday? • Updated shared care guideline for DMARDs in RA • Effect of LABAs on asthma-related deaths

Volume 5 Issue 3 – June 2006	<ul style="list-style-type: none"> • 4Ulcercare • Tuberculosis guideline • Top 5 cost savings in prescribing • Trimethoprim and renal function • Estimated glomerular filtration rate (eGFR) • Calcium and vitamin D and falls • Glucocorticoid-induced bone loss • Choice of antihistamine • Amiodarone and grapefruit juice • Metformin increases fertility in PCOS • What is the drug of choice to manage inadequate lactation? • ESPRIT study
Volume 5 Issue 2 – May 2006	<ul style="list-style-type: none"> • Update on Tiotropium • Five simple questions to ask COPD patients • Short-burst oxygen therapy for COPD patients • Updated Statin Policy • The CHARISMA study • EMEA recommends cautious use of topical tacrolimus and pimecrolimus • Type 2 diabetes, blood glucose monitoring, and driving • Thiazides still first line • Ivabradine • Updated palliative care dose conversion chart
Volume 5 Issue 1 – April 2006	<ul style="list-style-type: none"> • Hedrin Lotion • Lansoprazole capsule price crash • An outcome study for rosuvastatin? • Patients admitted to hospital and their medicines • Estimating the risk of stroke in AF • Effects of inhibitors of the renin-angiotensin system on renal outcomes • Severe paroxetine-digoxin interaction reported • Interaction between single-dose fluconazole and warfarin • Paroxetine and pregnancy • Drug and food interactions with warfarin • Rosiglitazone and macular oedema • Pseudoephedrine, blood pressure and heart rate • Detecting misleading claims in trial reports
Volume 4 Issue 12 – March 2006	<ul style="list-style-type: none"> • Hedrin Lotion • New NICE hypertension guideline • Misuse of chloroquine • Update on contraception 2005-2006 • Vitamin D and hip fractures • MHRA atomoxetine advice • Risk of cardiovascular events and celecoxib • Special products used at the Sheffield Children's NHS Trust • Lifestyle interventions to prevent diabetes • Lending a hand to patients with type 2 diabetes • Management of blood glucose in type 2 diabetes
Volume 4 Issue 11 – February 2006	<ul style="list-style-type: none"> • PACEF Intranet • Guidelines update • Discontinuation of ethosuximide capsules • 'Cannabis' spray – current status • Morbid obesity surgery

	<ul style="list-style-type: none"> • ACEIs vs ARBs • Rhabdomyolysis with statins and fibrates • Raynaud's phenomenon • Progestogen-only-pill and women over 70 kg • Guidance on completing the HOOF • Pressure to perform
Volume 4 Issue 10 – January 2006	<ul style="list-style-type: none"> • Withdrawal of Co-proxamol • Launch of lumiracoxib • Acid suppression and the risk of <i>C. difficile</i> associated disease • Reintroduction of the volumatic spacer device • Paroxetine in pregnancy • Inhaled corticosteroids in COPD • Effectiveness of statin therapy • The IDEAL study • JBS2 – prevention of CVD in clinical practice • Home oxygen service • Expanded licence for nicorette products
Volume 4 Issue 9 – December 2005	<ul style="list-style-type: none"> • 'Cannabis' spray – current status • Changes to CD regulations • Appropriate use of blood glucose testing strips • Drug interactions with smoking • Testing for <i>H.pylori</i> • British guideline on the management of asthma • Omalizumab 150mg injection • DEXA Scanning • Appropriate use of metformin • Long-acting reversible contraception
Volume 4 Issue 8 – November 2005	<ul style="list-style-type: none"> • Ibandronate 150mg tablet • Beta-blockers for hypertension • Can fentanyl patches be cut in half? • Flu this winter? • The PROactive study • Three steps to hypertension heaven • Update on the management of community acquired pneumonia in adults
Volume 4 Issue 7 – October 2005	<ul style="list-style-type: none"> • Use of cerazette • Beta-blockers for HF • LHRH analogues • Bug Buster kit vs pediculicides • <i>Clostridium difficile</i> associated diarrhoea • PGD for chlordiazepoxide in alcohol withdrawal • Guideline update • Discontinuation of ethosuximide capsules • Management of behavioural symptoms in dementia • SSRIs and GI bleeding • Appropriate oral antiplatelet use • Identifying high-risk TIAs
Volume 4 Issue 6 – September 2005	<ul style="list-style-type: none"> • Short-term clopidogrel – prescribing tip • Discontinuation of the volumatic spacer device • Advice on the cardiovascular safety of NSAIDs • The influenza immunisation programme • Oxycodone instead of diamorphine • Switching from Cardura XL to generic doxazosin • Glucosamine preparations • Lamotrigine and oral contraceptives • The ASCOT – BPLA study

	<ul style="list-style-type: none"> • NICE Clinical guideline 18 – drug choice for hypertension • Palliative care dose conversions
Volume 4 Issue 5 – August 2005	<ul style="list-style-type: none"> • Priorities in the management of type 2 diabetes • Appropriate use of metformin • Choice of glitazone • Management of blood glucose in type 2 diabetes • Drug tariff price reductions • Cost and compliance with statins • Dosulepin prescribing • Which inhaler device for asthma? • Alzheimer’s disease and agitation • Verapamil for prevention of cluster headache • Updated antidepressant guideline • New guidelines • Novo insulin withdrawals
Volume 4 Issue 4 – July 2005	<ul style="list-style-type: none"> • Shortage of diamorphine injection • EMEA advice on the use of coxibs • Advice on the use of venlafaxine • Management of AF • Missed pills: new recommendations • NICE advice on MR dipyridamole and clopidogrel • OTC chloramphenicol eye drops • Recommendation for glucosamine prescribing • Which antihypertensive in type 2 diabetes
Volume 4 Issue 3 – June 2005	<ul style="list-style-type: none"> • Advice on the use of venlafaxine • The pneumococcal immunisation programme • Discontinuation of Gaviscon liquid NHS packs • Generic lamotrigine • The House of Commons Health Committee report on the influence of the Pharmaceutical Industry • Calcium and vitamin D for fracture prevention • Risk of venous thrombosis and long distance travel • Choice of triptan
Volume 4: Issue 2 – May 2005	<ul style="list-style-type: none"> • Ciclesonide inhaler • Management of atrial fibrillation • Prescribing for children – top tips • Antioxidant vitamin and mineral supplements for age-related macular degeneration • Clopidogrel or aspirin + PPI in history of GI bleed? • Over-the-counter simvastatin • Combination antidepressant prescribing
Volume 4: Issue 1 - April 2005	<ul style="list-style-type: none"> • The TNT Study • Cardiovascular outcomes and antihypertensive drug treatment in older women • Beta-blockers and the risk of fracture • New guidelines • Suspension of Valdecoxib by Pfizer • NICE guideline on treatment of depression in adults • Oseltamivir and zanamivir added to SLS • Quinine for nocturnal leg cramps
Volume 3: Issue 12 - March 2005	<ul style="list-style-type: none"> • Updated advice on the safety of coxibs • Secondary prevention of osteoporotic fragility fractures • Dyspepsia, H. pylori testing, and PPIs • More on HRT • Complimentary therapies for menopausal symptoms

	<ul style="list-style-type: none"> • Quinine for nocturnal leg cramps • Long-term effect of diuretic-based therapy in ISH • Vitamin D and falls
Volume 3 Issue 11 – February 2005	<ul style="list-style-type: none"> • Where now with coxibs - the final word? • Withdrawal of co-proxamol • Pain management strategies for acute and chronic mild to moderate pain in adults • Eplerenone for heart failure • Hyperkalaemia caused by inhibitors of the renin-angiotensin-aldosterone system • Treatment of heart failure with spironolactone • Beta-blocker therapy in heart failure • Drugs to avoid in heart failure • Angiotensin–II antagonists and MI
Volume 3 Issue 10 – January 2005	<ul style="list-style-type: none"> • Where now with coxibs? Part 3 • NICE and atopic eczema • Oral thrush in babies • Effect of Depo-Provera on bones • Statins and cytochrome P450 interactions • HRT advice for prescribers • Reminder: glitazone contraindications • The NO TEARS tool for medication review • Management of urinary incontinence in women • New drugs for urinary incontinence • The ASCOT trial • The ATAC trial New guidelines
Volume 3 Issue 9 – December 2004	<ul style="list-style-type: none"> • Effect of vitamin D on falls • Updated dyspepsia management guideline • Community pharmacy and dyspepsia • Acid suppression and pneumonia. • Atenolol in hypertension • SPC changes for clopidogrel. • Tobradex eye drops • Benefits of simvastatin after 10 years. • Over-The-Counter simvastatin • Drug treatment of hyperlipidemia in women • Paracetamol vs ibuprofen for treating children's pain. • Tramadol • Dealing with hiccups
Volume 3: Issue 8 – November 2004	<ul style="list-style-type: none"> • Where now with coxibs? Part 2 • Appropriate NSAID use • Knee tape in OA of the knee • Licence Changes for Orlistat • The CARDS study • Primary Care Stroke Guidelines • Switching to QVAR • Home blood glucose monitoring in type 2 diabetes
Volume 3 Issue 7 – October 2004	<ul style="list-style-type: none"> • Where now with coxibs? • NSAIDs and the risk of MI • Topical treatments for pain • Chlamydia testing • Inhaled steroids and effect on growth • NNTs and smoking cessation • ALLHAT – setting the record straight • Which thiazide diuretic? • Hypertension guidelines

<p>Volume 3 Issue 6 – September 2004</p>	<ul style="list-style-type: none"> • H. pylori breath testing • Lithium monitoring. • Aminosalicylates in IBD. • Drugs for the treatment of obesity • Vacuum pumps for erectile dysfunction • Topical fusidic acid for infected eczema • Oral mucolytics in COPD • The MATCH trial – aspirin plus clopidogrel after recent ischaemic stroke or TIA • Adverse drug reactions as cause of admissions to hospital • The VALUE trial –valsartan vs amlodipine
<p>Volume 3 Issue 5 – August 2004</p>	<ul style="list-style-type: none"> • New guidelines • Over-the-counter simvastatin • Appropriate use of clopidogrel • National suicide prevention strategy • Changes to Peak Flow Meters • Appropriate prescribing of the Z-drugs • Newer drugs for epilepsy. • Choice of PPI • Effects of conjugated equine estrogen in postmenopausal women with hysterectomy
